

# Meeting Minutes

2/2/15

w/Frank

- Moving presentation from 4 to 5
  - Still working on wave generator and actuator.
  - LOOK for documentation on the motor for pin outputs
  - Cardboard with aluminum foil  
Bounce signal of the door (metal)
  - Milestone due Thursday
- 

## Tested Raspberry Pi database

- Needed monitor with HDMI to configure properly
- will test later
- Tested linear actuator
  - Command line couldn't configure
  - Used windows GUI
  - Got it moving
  - Feedback stopped working
    - Go to Radio Shack and replace
- Look into putting it in database GUI
