

Meeting Minutes W/Frank 3/16

- Oscar can't attend till next Monday
- passed back Grades.
- Begin research on X-Band
- Look into watertight seals on wire (tighten down)
 - conduit for TOWER
- continue looking into algorithm for linear actuator
- Get a DC power meter RF power meter to look at DC output.
- Final demonstration can be at the warehouse April 10th

Questions for Oscar

- 1.) Wave Gen control cable
- 2.) New solderable breadboard
- 3.) Results seen from code in past group
 - what they saw, what they analyzed.
- 4.) upgrade Raspberry pi (most recent)
 - to slow, setting it up, getting data into data tables. Not future proof. ESP with the gen & Actuator
- 5.) Wave Gen page
 - Not sure if Arduino code can run on pi
 - Micro controller vs. computer.

NOTE: EVA/JOEL work on website
