October 24 Meeting Minutes

Stephanie and Eva met with potential student for Computer Science, Binh Vuong

Showed him out project set up and explained overview of the project.

Gave him sample code from previous years to look at and Milestone reports to review.

Answered questions he had and gathered questions for Dr.Frank such as

-What other students are registed for the class?

-How many CS students can we gather for our project?

The Team awaits his finalized response if he wants to join. Then, testing and programming will start taking place.
